Bilateral Meetings

- (09.30 am - 05.30 pm). Please add the "Cooperation Profile" below

Description

Self Globe promotes and realizes rural sustainable development of the agri-food and agri-industry sectors all over the world. It is conscious that the sustainability of these sectors is a priority, so It acts to preserve their productivity thanks to a development pattern aimed to integrate all phases of agri-food and agri-industry chains. The guidelines of Self Globe's projects are: sustainability of rural development, quality of products and services, attention to all territorial features and interests of agri-food and agri-industry chains' workers. How Self Globe shares world's rural development? Thanks to training activities, transfer technologies, marketing, consulting and development of the products of chains mentioned before. Each one is think and realize in order to satisfy every single productivity need.
