## ZETA'S MISSION

In today's world where the foundations of society seismically shift and time-honored traditions simply evaporate, we find ourselves seeking new directions steeped in greater purpose... Among us, there are those soulful visionaries who, in a moment of historic and social change, transform our collective aspirations into art-visionaries like Zeina Tahan. Products of her own spiritual odyssey, Zeina's jewels capture the ineffable mystery and beauty of life and the pursuit of its long-forgotten values. Guided by contemporary themes and transported by timeless materials, Zeina Tahan masterfully weaves soul and intelligence into each and every unique piece, transforming all that inspires her into ethereal, wearable art: Zeta's collections.

*"While the world is crying out, mankind needs direction and hope. With my creations, my hope is to re-enchant the world."*

*Zeina Tahan*

---

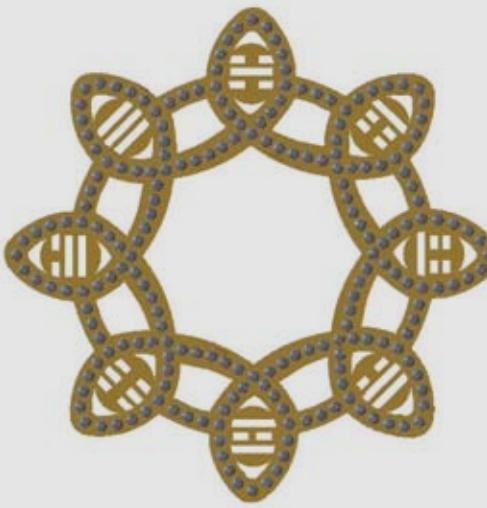

A l'heure où toutes les certitudes s'effondrent, où les valeurs se cherchent en vain dans un monde en totale mutation, les hommes sont plus que jamais en quête de sens. Il se trouve alors des êtres à l'âme profonde et inspirée qui, l'espace d'une intuition, résument nos aspirations et les transposent en art. Zeina Tahan, en fait parti. Sa quête, en constant mouvement, se parsème de bijoux qu'elle laisse comme des traces de ses voyages astraux, méditation à la recherche de cet insolite, ancré en chacun de nous et dont nous avons oublié l'existence. Contemporaine de par les sujets auxquels elle se réfère, intemporelle de par les matières qu'elle utilise, Zeina Tahan, enraciné dans l'ésotérisme d'une âme qui se cherche, transpose tout ce qui l'inspire en une infaillible et intangible beauté dont on peut se parer : les Zeta Collections.

## GUARDIAN ANGELS

Michael, Raphael, Gabriel...to each his own guardian angel Cast in gold, they are a link to the Creator, the Almighty, the sun, a warm energy. In silver, they connect us with Mother Earth, the moon, and cold passive energy. Together, they represent the achievement of a perfect balance, a steady equilibrium.

---

Mikael, Raphael, Gabriel...à chacun son ange gardien. D'or, ils sont le lien avec Dieu le père, le soleil, l'énergie chaude active; d'argent, ils nous relient à la déesse mère, à la lune, à l'énergie froide passive. Ensemble, ils représentent l'union des contraires pour atteindre l'équilibre parfait.

## TREE OF LIFE

Just as the chakras transmit vital energy through our bodies, the tree of life symbolic of the unity of life on our planet transfers energy from the heavens to the world below, from its branches to its deep protected roots. These symbols of interconnectivity lend unique inspiration to this fluid, dynamic collection.

---

Tout comme les chakras qui distribuent l'énergie vitale dans notre corps, l'arbre de vie symbolise l'axe de l'univers à travers lequel circule l'énergie universelle, du ciel vers lequel tendent ses branches, à la terre où plongent ses racines. Cette collection dynamisante s'inspire directement de ces symboles.

## LA MUSIQUE DES SPHÈRES

No one escapes the law of mathematics, not even the universe itself, an unfailing loyalist to the law of numbers. When we aren't counting them, numbers lend insight into our relationships, our personal evolution, the truth in each of us. The mysterious allure and rule of numbers inspire the spirit of this collection.

---

Tout est mathématique dans l'univers, tout obéit à la loi des nombres. Quand ils ne servent pas à compter, les nombres nous aident à comprendre d'autres vérités : sur nous-mêmes, sur nos relations avec les autres et notre propre évolution à travers les cycles de l'existence. C'est l'esprit de cette collection.

**CLAIR OBSCUR**

## CLAIR OBSCUR

Our universe is ruled by the relationship of two polarized but interlaced forces: Yin and Yang. These complementary opposites manifest themselves in life's natural dualities life and death... shadow and light, practical and impractical in a dynamic process that perpetually ebbs and flows. At the heart of this "black and white" dichotomy, these two polar opposites transform by circular dynamics into perfect harmony.

---

Nous, l'univers, sommes faits de contraires: Le yin et le yang, l'utile et l'inutile, la vie et la mort... des processus dynamiques en perpétuelle évolution. À la base du "clair-obscur" il y a l'harmonie de deux pôles opposés qui représente la perfection de l'ordre à travers le mouvement circulaire de la transformation des contraires.

WITH ROGER MOUKARZEL  
PHOTOGRAPHER

"Beauty is not in the face; beauty is a light in the heart." (Gibran Khalil Gibran). Indeed, it was the essence of the mystical light embodied in Zeina Tahan's work that Roger Moukarzel sought to capture in each of his own mesmerizing portraits.

---

" La beauté ne se lit pas sur les visages; elle illumine les cœurs." (Gibran Khalil Gibran). C'est cette lumière particulière qui caractérise le travail de Zeina Tahan que Roger Moukarzel a voulu retranscrire dans ses photographies envoutantes.

## ROGER MOUKARZEL

### BIOGRAPHY

Born in Beirut in 1962. Roger Moukarzel's passion started with war photography at the age of 15 in a conflicted country and region. He worked in this field of photography for the next 15 years, his jobs with Sygma and Reuters allowed him to explore the region and world during these highly volatile times. Roger's photo-documentaries were published around the world and in many international publications. The illustrious French magazine Paris Match has also chosen one of his pictures "a scene of destruction and mayhem in a Beirut street" to be featured on the cover page of its 40th anniversary book. 15 years in photojournalism took their toll and the shift to fashion photography was imminent. A shift from scenes of death ... to scenes of life. A shift from the ugly face of war ... to that of beauty. A shift from shooting the infamous ... to shooting the famous. This shift is most apparent in his personal work, which has been showcased in more than 15 exhibitions worldwide. His two books "Trait Portrait" (published by himself) and "Wadi Qadisha" (published by Aleph) offer a three-dimensional look at different aspects of Lebanese history and culture... the human and his natural world. Roger's body of work is his mission and his pictures are his messages.

**LIFE'S DANCE**

# LIFE'S DANCE

WITH RACHID KOREÏCHI

ARTIST

Following a serendipitous meeting between esoteric Lebanese jeweler Zeina Tahan and Algerian-born artist Rachid Koreïchi \*, whose approach is deeply rooted in mystic Sufism, a unique jewelry collection was born. For this master of calligraphy, endlessly inspired by the historic alphabets surfaced from the Arab-Berber world to the Far East, art must not only reflect life but also inspire daily celebration and eclecticism. It's little wonder, then, that Koreïchi is a whimsically unpredictable presence, no stranger to surprise and unexpected turns in his craft. A veteran of raw materials , metal, stone, ceramics, textiles, the artist has turned, with characteristic aplomb, to the intricate sophistication of taming gold. His signature pieces, monumental and commanding, have quickly made room for a new league of work, something to be worn and with greater delicacy. For this exclusive collaboration, each piece entirely hand crafted and produced in a limited edition of just seven pieces, Zeina Tahan added doses of her own inspiration to Koreïchi's vision, fusing gold, silver, wood, and black stone with stunning refinement. Each piece in their collection, from the pendants to the bracelets and earrings, indicates the intimacy with which it was crafted and with which the piece intended be shared and worn and passed with love.

Quand Zeina Tahan, éprise d'ésotérisme, a rencontré Rachid Koreïchi\*, dont la démarche est profondément inspirée par la mystique soufie, une collection de bijoux est née. Pour ce maître du signe, dont l'alphabet réinterprété trouve ses origines dans un registre qui s'étend du monde arabo-berbère à l'Extrême-Orient, l'art doit pouvoir se frotter à la vie, on doit faire de lui un événement quotidien. Et comme la vie c'est la diversité, l'artiste n'est jamais là où on l'attend. On ne le crois sensible qu'à la matière brute, le métal, la pierre, au mieux la céramique ou le tissu, le voilà qui s'éprend de la sophistication apprivoisée de l'or. On le connaît surtout pour ses œuvres monumentales, le voilà dans l'intimité du bijoux, l'art que l'on porte sur soi et qui embellit. Pour cette collection exclusive, dont chaque pièce, entièrement réalisée à la main, est limitée à sept exemplaires seulement, Zeina Tahan ne s'est pas bornée à une simple retranscription de l'œuvre du plasticien. La créatrice s'est laissée porter par sa propre inspiration, mêlant l'or, l'argent, au bois et à la pierre noire, pour donner le jour à ces pendentifs, ces bracelets et ces boucles d'oreille d'un étonnant raffinement. Une collection de bijoux unique, placée sous le signe du précieux, pour retrouver le sens de l'essentiel et la voie de l'Amour.

\* Born in 1947, Rachid Koreïchi is a major player in the international contemporary art scene and currently lives in Paris, France.
